XEROX	Material Safety Da	ta Sheet	MSDS No: Date:	A-0110 7/31/92	
Manufacturer: Xerox Co Rochester	rporation , NY 14644	- · · ·	Health Emergen	7/23/07 on: (800) 828-6571 cy: (585) 422-2177 ec):(800) 424-9300	
Section I - Product Identification					
Trade Names/Synonyms:	1075/1090/4050/4090/4250/4450/4530/ 5680/5892/DocuTech 90/DocuPrint 390 Class V Dry Ink		FX: 6R303	58*, 6R301, 6R455*; (*, 6R306*, 6R323; (1, 6R524*;	
Chemical Name:	Thermoplastic Powder		NY: CL530 CL5P6R45	6R455*, CL566R455*, 55*	
WHMIS Status:	This is not a WHMIS controlled produc	t.		*Cancelled	
Ingredients (% by wt.) Styrene/acrylate polymer (>90%) Carbon black (5-10%)		252	<u>CAS No.</u> 213-39-2 333-86-4		

Carbon black (5-10%) 1333-86-4 Quaternary ammonium salts (<5%) 123-03-5/3843-16-1

Note: Toners labeled 1075/1090/4050/4090/4650 contain only quaternary ammonium salt CAS# 123-03-5 (<5%)

Section II - Emergency and First Aid

Primary Route of Entry:	Symptoms of Overexposure:
Inhalation	Minimal respiratory tract irritation may occur as with
Eyes:	exposure to large amounts of any non-toxic dust.
Flush with water.	
Skin:	Medical Conditions Generally Aggravated by Exposure:
Wash with soap and water.	None when used as described by product literature.
Inhalation:	
Remove from exposure.	Additional Information:
Ingestion:	None.
Dilute stomach contents with soveral glasses of water	

Dilute stomach contents with several glasses of water.

Section III - Toxicology and Health Information

This material has been evaluated by Xerox Corporation. The toxicity data noted below is based on test results of similar Xerox toners.

Oral LD ₅₀ : Dermal LD ₅₀ :	>5g/kg (rats) practically non-toxic. >5 g/kg (rabbits) practically non-toxic.		10 mg/m ³ (total dust) 15 mg/m ³ (total dust)
Inhalation LC ₅₀ :	>5 mg/l (rats, 4 hr exposure)practically non-toxic.		5.0 mg/m^3 (respirable dust)
	>20 mg/l (rats, calculated 1 hr exposure) non-poisonous, DOT.	STEL:	
Eye Irritation:	Not an irritant.	Ceiling	
Skin Sensitization:	Not a sensitizer.	\mathbf{XEL}^2 :	2.5 mg/m^3 (total dust)
Skin Irritation:	Not an irritant.		0.4 mg/m^3 (respirable dust)
Human Patch:	Non-sensitizing, non-irritating.		
Mutagenicity:	No mutagenicity detected in Ames Assay.		
Carcinogens:	None present		
Aquatic LC ₅₀ :	>500 mg/l (rainbow trout). ¹		

Additional Information:

- Teratology (rats): No significant effects on fetal development.
- Subchronic Inhalation (rats): No adverse effects other than those due to "lung overloading" (defined below).
- The results obtained from a Xerox sponsored Chronic Toner Inhalation Study, demonstrated no lung change in rats for the lowest (1mg/m3) exposure level (i.e. the level most relevant to potential human exposure). A very slight degree of fibrosis was noted in 25% of the animals at the middle (4mg/m3) exposure level, while a slight degree of fibrosis was noted in all the animals at the highest (16 mg/m3) exposure level. These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged period. This study was conducted using a special test toner to comply with EPA testing protocol. The test toner was ten times more respirable than commercially available Xerox toner, and would not be functionally suitable for Xerox equipment.

Section IV - Physical Data

Appearance/Odor:	Black powder / faint odor	Softening Range:	85°C to 100°C
Boiling Point:	N.A.	Melting Point:	N.A.
Solubility in Water:	Negligible	Specific Gravity (H ₂ O=1):	~1
Evaporation Rate:	N.A.	Vapor Pressure (mm Hg):	N.A.
Vapor Density (Air=1):	N.A.	pH:	N.A.
Volatile:	N.A. % (Wt.) N.A. % (Vol.)		

Section V - Fire and Explosion Data

Flash Point (Method Used): Flammable Limits: NFPA 704: Extinguishing Media: Special Fire Fighting Procedu Fire and Explosion Hazards:	 N.A. LEL: N.A., UEL: N.A. Health - 0, Fire - 1, Reactivity - 0 Water, dry chemical, carbon dioxide or foam. Ires: Avoid inhalation of smoke. Wear protective clothing and self-contained breathing apparatus. Toner is a combustible powder. Like most organic materials in powder form, it can form explosive mixtures when dispersed in air. 	
	Section VI -Reactivity Data	
Stability:StableHazardous Polymerization:Will Not OccurHazardous Decomposition Products:Products of combustion may be toxic. Avoid breathing smoke.Incompatibility (Materials to Avoid):None known		
	Section VII - Special Protection Information	
Respiratory Protection: Eye Protection: Protective Gloves: Other:	None required when used as intended in Xerox equipment. None required when used as intended in Xerox equipment. None required when used as intended in Xerox equipment. For use other than normal customer - operating procedures (such as in bulk toner processing facilities), goggles and respirators may be required. For more information, contact Xerox.	
	Section VIII - Special Precautions	
Handling and Storage: Conditions to Avoid:	None Avoid prolonged inhalation of excessive dust.	
	Section IX- Spill, Leak, and Disposal Procedures	
For Spills or Leakage:	Sweep up or vacuum spilled toner and carefully transfer into sealable waste container. Sweep slowly to minimize generation of dust during clean-up. If a vacuum is used, the motor must be rated as dust tight. A conductive hose bonded to the machine should be used to reduce static buildup (See Section V). Residue can be removed with soap and cold water. Garments may be washed or dry cleaned, after removal of loose toner.	
Waste Disposal Method:	This material is not a hazardous waste according to Federal Regulation 40 CFR 261. State and Local waste disposal requirements may however, be more restrictive. Consult with the appropriate State and Local authorities for specific information. Incinerate only in a closed container.	
Section X - Transportation Information		
DOT Proper Shipping Name Hazard Classification:	N.A. (Not Regulated)ID Number:N.A.N.A.Packing Group:N.A.
